# TVX T130 series Ride-on Scrubber Dryer

## Your Reliable Powerful and Smart Helper

### Product advantages

The sewage can be filtered and recycled. 24V 200Ah batteries support super long standby. Continuous use time can reach 5.5 hours. High working efficiency

Cleaning width up to 860mm, Save the cleaning time and improve the work efficiency

Super endurance. Large capacity maintenance-free Chilwee batteries. Continuous use time can reach 5.5 hours.

The automatic deceleration system is maximum guaranteed the safety of the operator when the machine turns

Full load ramp up to 15%, brake torque 8N.M, effective brake stop

# T130C Water Cycle Ride-on Scrubber Dryer

### Product Features

- Save the water, extend the working hours. A tank of water meets one day's cleaning needs.
- When cleaning with detergent, it can be done effectively recycling, filtration and reuse, saving cost.
- Using a three-level filtration system, Backwash filter, the middle filter screen is made of stainless steel.
- Avoid repeated of adding water and discharging sewage.

# T130D Disinfection and Sterilization Ride-on Scrubber Dryer

### Product Features

- Disinfection can be completed while daily cleaning Work. One-stop completion of floor washing and disinfection, safe and reliable
- Smart water disinfection<sup>®</sup> system, the machine is equipped with secondary chlorine Acid disinfectant generator, sterilization effect by SGS certification
- The rear spray device can be fixed or used by hand, to achieve three-dimensional elimination

### Smart water disinfection<sup>®</sup> system

- 1 Wide sterilization range
- 2 fast sterilization
- 3 low corrosion performance
- 4 High safety performance
- 5 good environmental protection

# T130X Spray gun Ride-on Scrubber Dryer

## Product Features

- The spray gun function is added to facilitate the cleaning of the sewage tank
- Disinfectant can be injected to disinfection and sterilization the environment, and disinfection and sterilization the ground in one way to save personnel costs
- It is easy to wash dust in narrow areas during floor washing

## Product Features / Efficient

- The motor central water outlet system can improve the brush working effect, so that the water and detergent evenly distributed on the brush, save water and detergent.
- The edge of the top cover of the recovery tank is installed with high-quality elasticity Seal strip, improve the sealing ability and water absorption effect .
- Anti-overflow design to prevent sewage enter the vacuum motor.
- The inner wall of the tank is smooth and can reduce bacteria Residues and stain residue.

### Highly integrated control console

Ultra-long battery standby ensures longer continuous operation time

Delayed off function of suction motor, zero residual wastewater in the tank

The motor central water outlet system can improve the brush working effect

Unique Softstart system

## Product Features / Safe

- The front of the fuselage is made of collision strip with soft material with led lamp, which is beautiful Generous at the same time can also reduce the damage of the hit object .
- The automatic deceleration system maximizes the safety of the operator when the machine turns.
- Safety flash lights that provide maximum security .

## Product Features / User-friendly

- ▶ Lift the seat to take out the charging plug to charge
- ▶ Unique accelerator pedal that controls the machine forward and backward
- ▶ Humanized mobile phone box and usb charger interface DESIGN The usb interface is waterproof
- ▶ The solution tank adds a double purchase cup holder, so that the operator has more storage space
- ▶ Black PVC fabric with front and rear adjustable seats Comfortable and durable, can be lossless installation
- ▶ The brush and squeegee are lifted by electronically system, one-key lift

Excellent climbing performance and braking performance

Using 24V 760W drive motor, 6km / h, Torque 49.5N.M, full load climbing up to 15%

## Application scenarios

Logistics Centre

Campus

Plant Workshop

Supermarket

Hospital

Traffic Hub

## Parameters

	T130B	T130C/130D	T130X
Cleaning width		860mm	
Squeegee width		1100mm	
Efficiency		5590m <sup>2</sup> /h	
Brush pressure		50Kg	
Rotation speed of brush disc		180rpm	
Brush motor		24V/400W*2	
Driving motor		24V/760W	
Vacuum motor		24V/500W	
Volume of solution tank		120L	
Volume of recovery tank		130L	
Battery		24V/200Ah	
Endurance time		6.5h	
Unit dimension		1523*880*1240mm	
Net weight machine	222Kg	224Kg	226Kg
