TS1900 Series

• Landscape of the City

The spring is green with singing birds and fragrant flowers. The city is beautiful due to brightness and cleanness, which make life brilliant and extraordinary. TVX large ride-on sweeper is today's scenery and tomorrow's classic.

“

**Come from the world's top industrial design company of Italy
Innovative and modern style, a shining design at first sight
Let the good looking and excellent machine become our working partner.**

Products Advantages

- Large cleaning width, fast working speed and maximum working efficiency of 19,000m²/h
- Spray dust control, double high performance brushless vacuum suction motors, 6m² high-efficiency filter: three functions sweep the dust away
- High efficiency battery with long battery life, large capacity solution tank and dustbin, provide guarantee for continuous operation
- The upper part of the dust box can be equipped with a separate high-pressure water gun which can easily remove stubborn stains
- Optional fans or air conditioner, can adapt to the extreme climate conditions of the operation and improve the operator experience

Advanced CAN system makes the interaction easy.

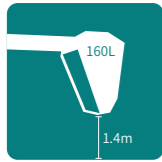

Powerful dust removal, dust suppression and dust absorption function can easily clean up the dust and garbage debris one-time.

Equipped with an intelligent IOT system, it can help comprehensively monitor the sweeper's status at any time, optimize the scheduling scheme and power consumption, effectively help carbon neutralization and carbon peak, and reduce the comprehensive cost of users.

Enclosed and high position cab, with a wide view, can operate in various weather conditions, and meet more complex cleaning scenes.

With safety and humanized design, TS1900 series is not afraid of any climate, any scene.

Product Features / Powerful Function

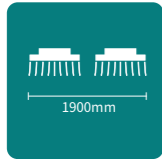

Automatic dumping dustbin which can load 200Kg

Waterproof and dustproof 6m² high-efficiency filter

Adjustable rolling brush with constant ground pressure

1900mm working width

Panel button control on the side brush and rolling brush up and down

More powerful suction ability with double vacuum motors

- Filter shaker motor can help collect the dust to the dustbin to prevent the residue inside the dust box
- With 230L large solution tank, can suppress the dust effectively
- Main brush consists of a variety of materials, effectively increase hardness, toughness and wear resistance, suitable for a variety of ground

- Auto start: one button can start the side brush, roll brush, vacuum, spray function which simplify the use of steps and improve the operating feeling
- Tilt side brush can gather garbage and avoid throwing out
- Max climbing degree reaches 25° due to strong rear-drive motor

Product Features / Operation and Safety

- Normal, Steep slope, Snow mode can improve the safety of driving
- The brushes gradually increase the speed when the machine is running which protect the luster of the ground and reduce the wear of the brushes

- The front brush is equipped with elastic protection mechanism which produce mechanical buffer upon impact and reset the brushes at the same time, to prevent damage to the motor and side brush
- Combination switches can control lights and wipers which it is easy to use and offer better sight

Normal mode, Steep slope mode and Snow mode

Soft start of motor

Backup camera and radar

Automatic deceleration when make a turn

Product Features / Humanization Design

Wheels are equipped with shock absorption system, which can easily pass through the uneven road. Driving is more comfortable

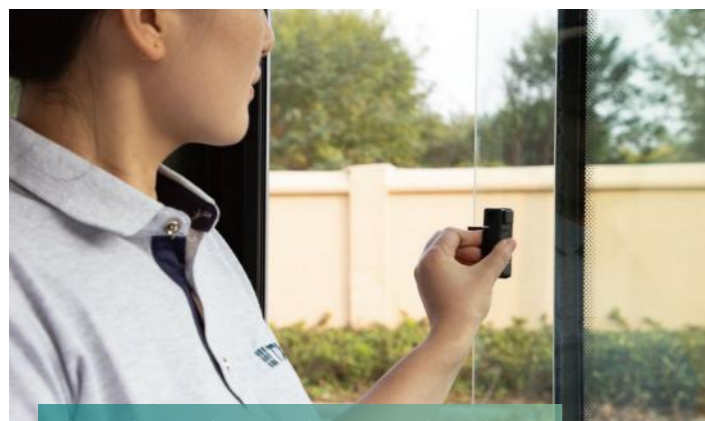

Design of storage space and USB interface

Ergonomic design seats: seats and backrest can be adjusted by the height

Easy and convenient to maintain

The side window can be opened, making the cab more comfortable

Turning assistance motor: easy to drive at your will

Specification

	TS1900	TS1900S	TS1900H	TS1900HS	TS1900AS
Solution tank	230L				
Cab	Open-top	Open-top	Semi-enclosed	Semi-enclosed	Fully enclosed
Working width	1900mm				
Max forward speed	10Km/h				
Max capacities	19000m ³ /h
